ACTION: USOM, NEW YORK 11/10/62

EYES ONLY

SUBJECT: Cuba (last paragraph USOM 11/10/62)

While we agree there appears to be no present purpose to be served by our pressing further an IORG inspection proposal at this time, we do not want ourselves now to censor or take any positive action to drop proposal. It is important that onus for failure proposal be squarely on Soviets and Cubans. Also pending further decisions and developments with respect quarantine, we want keep open option of possibly reviving proposal.
